

Q) How do I change my Comcast password?

A) To change your Comcast.net password, follow the instructions outlined below.

1. Select My Account from the top navigation at <http://www.comcast.net>
2. If you are signed in to Comcast.net with a Secondary account, select the link titled Change my password in the EMAIL SETTINGS table. Please proceed directly to step 4 below.

**EMAIL SETTINGS**

- [Change my password](#)
- [View my email account settings](#)

3. If you are signed in to Comcast.net with a Primary account, select the link titled Change the password for any of my email accounts in the EMAIL SETTINGS table.

**EMAIL SETTINGS**

- [Create additional email accounts](#)
- [Change the password for any of my email accounts](#)
- [Enable or disable spam filters](#)

4. Fill in the required information, and select the UPDATE button. Your Comcast.net password has now been changed.

**CHANGE PASSWORD**

You are signed in as: **rossmckillop**

To change the password for any of your email accounts, select the account from the drop down list. Enter the new password and then re-type it to confirm. If you have yet to create a Secret Question and Secret Answer, please do so. This will allow you to reset the password in case it is lost or forgotten in the future.

- Your password must be between 8 and 16 characters long and may not include any special characters (letters and numbers only).
- **Passwords are case sensitive.** "OpenSesame" is different from "opensesame".
- Your password is considered private information that will allow access to your account. It should not be shared nor should it be easy to guess. If you have trouble remembering it, please write it down, but keep it in a secure location.
